**Subject:** RE: WES reviewers of FFS -- ERDC

ERDC Reviewers

1. Mark Dortch - reviewing empirical mass balance model - ONLY ERDC reviewer for Draft FFS.
2. Billy Johnson - nothing - the flooding portions he reviewed did not change from his previous review
3. Paul Schroeder - also not reviewing - he suggested Joe Gailani review Appendix G as it was more Joe's expertise. We are NOT having Joe review this as it's the same portions Earl will be reviewing.

I hope we don't rush to the same group asking the same Q since contact has already been made (it's not "their" vs. "our" experts -- ERDC provides service to all Corps districts equally -- :) I'd be curious in who and what sections they want reviewed by ERDC since we have had several involved plus Earl. Do you know their interests?

Copying Eugenia in case she talks to NY District while you are away.  
Beth

Subject: WES reviewers of FFS

USACE-NY is planning on sending the draft FFS to their WES experts - I need to send them a list of the WES reviewers who are already working on the FFS. Did Paul Schroeder pass his section off to someone else? And Mark Dortch is the other WES reviewer we're dealing with.
